THE Investment Department af a Baltimore stock exchange house had a caller who wished to buy fifty shares of a certain investment stock. While the customer waited, the manager called up the firm's Philadelphia agent on the Bell Long Distance Telephone and secured the stock, with the promise of delivery next day.

Quick trades are often made by the Bell Telephone service.

"E-CON-O-MY; Strict husbanding of enources; regulation with respect to roduction and consumption of goods and wealth; as, use of adulterants is poor Economy."

—Webster's Unabridged Dictionary.

## FACTS No. 10 **ECONOMY**

Previous Fertilizer Facts have treated with CO-OPERATION,

And now comes that subject which is the basis of all lasting wealth as defined above—ECONOMY.

Practically applied, what does Economy mean?

Is it in buying chern cotton seed, corn and grain that gives you only half a stand?

Is it in you making a pair of shors out of materials that cost \$1.50 that will view out in sixty days when a pair that costs you \$2.00 will wear a year?

Is it in spending fifty cents for a medicine which you think you need when a \$2.00 visit from a physician will put you on your feet in a few days?

Is it mixing your own fertilizer unevenly so that some plants got all the natrogen and run to stalk; others all the potash and bear heavy fruit with no body; or is it buying Commercial artilizers where only the most carefully selected materials, thorough yamiyest, chemically tested and accurately balanced are nixed under careful and watchful supervision by the most are term machinery, which INSURES a uniformity in the good offered.

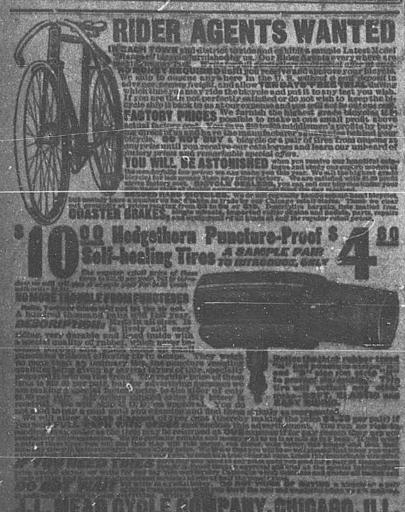

At the outside there is only about 30 cents an arge difference in the cost of the two fertilizers mentioned above, and 30 cents is the cust of the two fertilizers mentioned above, and 30 cents is the custoff the two fertilizers mentioned above, and 30 cents is the custoff the analysis on every bag of goods you buy.

The opposite of ECONOMY is EXTRAVAGANCE which to oftentimes caused by being "Penny wise and pound foolish."

Remember, "strict husbanding of resources and regulation with respect to production" is the accepted definition of Economy. The time to make money on your crop is when you are producing it. The way to make money on your crop is to keep down the cost.

Bulleties on Cotton and Corn sent free.
